

FRIDAY,
FEBRUARY
13th.

IS THE LAST DAY. COME
EVERY DAY AND GIVE IN A
DIFFERENT NAME.

SEE OUR DAILY PROGRAM
ON THIS PAGE OF EVERY
PAPER.

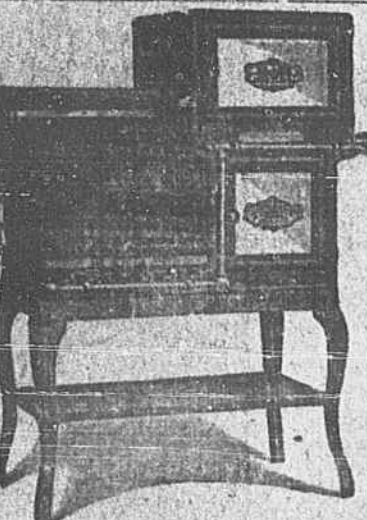

Style 600.

EVERY effect has its cause. A
lifetime of musical pleasure is but
the natural sequence of that supreme
care and attention which marks every
step in the building of an

IVERS & POND Piano

There isn't any "perhaps" about
it. The years must vindicate such
conscientious effort with service of the
most pronounced gratification. And
such service comprehends not alone
the nearest approach to perfection of
tone, but also a grace of outline and
finish in perfect harmony with unap-
proached musical excellence. Our
Easy Payment Plan brings an Ivers
& Pond within the reach of all.

Items of Interest and Personal Mention Caught Over the Wire—
Less On the Streets of Anderson.

Line of March For Parade.

Those who have the great Men's
parade for Friday night in charge,
last night gave out the official line
of March. The men of the city of
Anderson proper are to meet at their
various churches, the Baptists at the
church, and so on, later meeting at
the square. The men of the various
mill churches will assemble at the
Chamber of Commerce, while the
general public to participate in the
parade will assemble at the square.
The line of march will go up North
Main street, out Greenville street to
McDuffie street, down McDuffie street
to East Whittier street, around the
square, down South Main street to the
Baptist church, where the addresses
of the evening will be heard. The pa-
rade will be headed by the Second
Regiment band of Anderson and an
effort is being made to secure the
First Regiment band of Williamston.
It is thought that this will be pos-
sible and the music will be a feature.

Field Agent Of Epworth League.

Miss Isabel Watt, field agent of the
Epworth League of South Carolina,
was in the city last night for the
purpose of meeting with the Epworth
League of St. John's Methodist
church. Miss Watt is a well known
league worker and her visit to An-
derson will give members of the local
league an impetus and inspiration
for new and better efforts. She gave
them much valuable information and
many helpful suggestions at last
night's meeting.

First Practice For Choir.

The first class practice of the 200
voices to compose the choir for the
Sunday School Association, was held
last night in the First Baptist church.
Much interest is being manifested in
the musical program and those who
are acquainted with the steps taken
say that the music will be one of the
biggest features of the convention.

Capt. Raymer Is Honored.

It was learned in Anderson last
night that Capt. R. J. Raymer of this
city had been elected president of the
South Carolina Bottlers' Associa-
tion, which is now in session in
Columbia. This is a high honor for
the Anderson man but Anderson
people are fully aware of the fact
that he deserves it and that the state
association could have picked no bet-
ter man for this high position. Capt.
Raymer knows all there is to know
about the bottling business and he
will direct the affairs of the state
association in a splendid manner.

Musicians Will Arrive Today.

Much disappointment was occasioned
yesterday over the failure of Prof.
Lowden, the musical director for the
Sunday School Convention, and his
pianist, to arrive in the city as had
been expected, but positive announce-
ment was made that the distinguish-
ed musicians will be here today. It
is expected that they will arrive some
time this morning and will be ready
to open the choir practice tonight at
7:30 o'clock. It is urged that every
member of the choir be present.

Basketball Game Called Off.

Owing to the fact that their coach,
Major Workman, could not come to
Anderson with them yesterday, the
game of basketball between Anderson
High School and Bailey Military In-
stitute of Greenwood, was called off.
This game is the deciding game of a
series, the first game being won by
Bailey and the second by Anderson.
The tie will be played off at an early
date and the Anderson boys are con-
fident that they will be able to lift
the soldiers' mantle.

Party Gone To Columbia.

Mr. and Mrs. J. E. Pearman and
Sheriff and Mrs. Joe M. H. Ashley
left yesterday for Columbia where
they will spend a few days. Mr.
Pearman, the clerk of court, went to
make arrangements about securing
more commodious places for the
and to lend his aid in the fight for a new
judicial circuit. Mr. Ashley also was
going in the interest of that bill.

Many Went To Greenville.

It had been expected that a large
crowd of Anderson people would
avail themselves of the special train
to Greenville last night for the pro-
duction of "The Red Widow" but an
even larger number went than had
been anticipated by the local officials
of the P. & N. They said last night

that they were well pleased with the
generous patronage accorded them on
this trip.

Concert Was Much Enjoyed.

Edward Baxter Perry, concert
pianist and lecturer, drew a large and
appreciative audience to the An-
derson college auditorium last night.
Mr. Perry's wonderful gift of expres-
sion was never equalled in Anderson
and those who attended this lyceum
feature say that it was easily one of
the best musical events of the year in
Anderson.

Townville Woman Is Improving.

Anderson county people will be
pleased to learn that Mrs. E. M.
Brown of Townville, who recently un-
derwent an operation in Columbia is
fast recovering at a hospital in that
city. Mrs. Brown's condition was
regarded as quite serious and the
fact that she is so much improved will
be good news to the people of this
section.

Little Girl Badly Hurt.

Martha Wilson, a 12-year-old suffer-
ed a painful injury last Saturday
afternoon while skating on the ce-
ment on River street. As a result
of a fall she sustained a bad break
of the right arm, the bone being
splintered just about an inch above
the wrist. Dr. J. C. Harris was sum-
moned and the little girl was carried
to her home on Whittier street, where
the bone was set. Last night she
was said to have been getting along
nicely and will soon be entirely re-
covered.

Negro Doctor Famously Hurt.

Frank Jenkins, a negro doctor of
Anderson has decided that there are
two sides to the pleasure of automo-
biling, following an unfortunate ex-
perience he had last Saturday night
with the gasoline tank of his car.
The negro was in front of the city
hall and while trying to adjust some
part of the machine, the gasoline
tank exploded, burning him on the
face and at the same time inflicting
a number of painful lacerations upon
his countenance. He was carried
legally recovered from his set-to with
into the city hall where his wounds
were dressed and he has now prac-
tically recovered.

Cotton Matter In Anderson.

Cotton Mather, well known in An-
derson, spent Friday, Saturday and
Sunday in the city. Mr. Mather is
president of the Austell Swing and
Ladder Company of Austell, Ga., and
makes his home in that place. He al-
ways receives a warm welcome in
Anderson and has dozens of friends
here who are always glad to see him.

Interesting Figures About County.

Some interesting figures relative
to Anderson county have just been
compiled and made public by the An-
derson chamber of commerce. The

official figures for the acreage of the
county, as compiled by the local
chamber of commerce show that
136,490 acres were in cotton in An-
derson last year; 72,145 acres were
in corn; 31,164 were in wheat; 13,222
were in hay and 10,720 were in oats.
The cotton crop of the county for
the past year is figured as being ap-
proximately 72,500 bales.

Fighting For Better Rates.

Charles A. Wimbish, an attorney of
Washington, D. C., has been engaged
through the traffic departments of
Greenville and Anderson's Chambers
of Commerce for a reciprocal hand-
ling of the fight being made by the
Freight Audit and Adjustment com-
pany of Washington for better coal
rates. This case is shortly to be taken
before the Interstate Commerce
Commission and D. A. Henning, traf-
fic manager for the two towns men-
tioned, says that Mr. Wimbish will
properly present the claims of Green-
ville and Anderson.

Changing Clemson's Name.

The railroad committee tonight in-
troduced in the House a bill to pro-
vide for changing the name of
Clemson College to Calhoun Univer-
sity. The measure involves the big
legal question of whether the State
shall violate its contract under the
terms of the Clemson bequest. The
change in the name of Clemson Col-
lege to Calhoun University has been
recommended by the Governor in a
special message.

FROM SEPTUS.

Special to The Intelligencer.

Septus, Feb. 9.—The recent heavy
rains will stop the plows for several
days, but still the progressive farmer
finds as much to do when the land is
wet as when it is dry.

While an automobile rides mighty
good, however, none of us will break
our necks in order to make a trip
in that new kind that you speak of,
Mr. Editor.

The many friends of Mrs. J. D.
Moore, Mrs. Ed Kay and Miss Sallie
Jones are glad to know that they are
much better, having been real sick
for the past several days.

Greenville husband (seriously). What
little bird told you that I had been
drinking?

Wife, (coolly). It was a swallow
of course.

The indications are that the corn
crop acreage will be much greater
than last year in this community.

It is very likely that the only
married man who ever lived up to
his wife's ideal died the next day af-
ter the wedding.

Many thanks to our 11x and Twen-
ty friend who nominated us for the
legislature, but we want to be cor-
rectly provided we can work the job on
commission and can get all of the
negroes of the county to give a "fire
ball" party next Christmas.

Mr. A. T. Presley was quite sick
last week and friend Tom says that
it came near being a case of "John
Henry going around the curve."

Anderson and Septus are both my
towns, Mr. Editor, and to show you
that we are progressive and do not
believe in race suicide, two sets of
twins have made their appearance in
our little town within the past three
weeks. The last to arrive was at
the home of Mr. J. D. Black.

In the excitement friend Edgar ran over
four barb-wire fences and has
somewhat disfigured his nose. How-
ever, his friends are congratulating
him and trust the mother and babes
will get along fine.

Mrs. Clarence E. Elgin with her
little daughter, Nanette, has return-
ed to her home at Searles, Ala., af-
ter spending several weeks with her
mother, Mrs. Nannie P. Duckworth.

Mr. John A. Breaux is spending
a few days with his sister, Mrs.
H. J. Cruch, at Elks, S. C.

Any man who will admit that his
community needs a better school
building and still refuse to give what
he is able to give and at the same
time fight the issuing of bonds for
such a building, indeed displays bad
citizenship and the man who is not
willing to be taxed to help school
children who otherwise could not
have such advantage is nothing more
nor less than a "black wad" and is
absolutely worthless to the com-
munity in which he lives.

No better proof is needed that
Lebanon needs a better school build-
ing than for the pole casts to take
possession, as they did last week
when school has to be adjourned
since die in order to let the old barn
building be aired out. Let our peo-
ple get together and if they can't
raise the money with which to build
one way then try another.

If it was not for the issuing of
bonds Anderson today would not
have the magnificent school build-
ings that she has and we ask, what
would Anderson be or hope to be
without these splendid buildings?

W. L. C.

C. S. Moore, travelling representa-
tive of the Columbia Switch, is in the
city today. Mr. Moore is a local gen-
eral, which means that he gets the
business.

FINE EXHIBIT FOR DALLAS CORN SHOW

South Carolina Will be Well
Represented at Great Grain
Congress

Clemson College, Feb. 9.—Despite
the fact that the National Corn Ex-
position will this year be held as far
away as Dallas, Texas, South Carolina
will be represented at the exposition
by an exhibit which is expected to
compare favorably with that of any
other state. Special pains have been
taken at Clemson College to prepare this
exhibit, which has already been
shipped to Dallas and the exhibit will
be considerably augmented by mater-
ial which is being sent on from Co-
lumbia by Commissioner Watson's de-
partment. Prof. H. W. Darre, botan-
ist and plant pathologist, and Prof.
Thomas E. Keitt, chemist, have left
here for Dallas to represent Clemson
College and the state at the ex-
position.

The material shipped from Clemson
College includes an exhibit of about
forty kinds of fertilizer materials and
exhibits of results of fertilizer tests
on corn, cotton and small grain at the
state experimental station and the
branch stations. There are also soil
and mineral maps of various regions
of the state showing especially the pro-
ductiveness of the different types of
soils as indicated by the Boys' Corn
Club yields.

Another interesting feature is a cot-
ton disease exhibit showing cotton
results of experiments relative to
anthracnose and cotton wilt with the
their control. In the field crops ex-
hibit were sent samples of crops
which are peculiar to and which ex-
cel in this region. There are also a
large number of transparencies illus-
trating the principal features of the
state educational institutions, includ-
ing the University, Clemson and Win-
throp.

Among other things there are num-
erous charts showing the results of
work at the Experimental Station and
results obtained by the various agri-
cultural agencies of the state.

Some of the things which are being
added to the exhibit by Commissioner
Watson are special displays of corn,
oats, tea, and tobacco, photographs of
some of the state's industries, sam-
ples of small grain, cover crops, das-
hoes, seeds, cotton samples and
Girls' Club products.

Commissioner Watson has co-oper-
ated with Prof. J. N. Harper of Clems-
on College, in making the exhibit one
which will do credit to South Caro-
lina.

CAROLINIAN MAY CHAMPION NAVY

C. P. Wyatt Apprentice of Easley
Holds Record for Best Rifle
Shot

South Carolina, in the person of
C. P. Wyatt, apprentice of Easley,
will possess the champion rifle shot
of the United States navy for 1914.
provided Wyatt's record, made on the
recent fleet match at Guantanamo
bay, Cuba, remains unbeaten until
June 25th.

Letters received in Anderson yester-
day give the scores as follows:
The Utah won the match, with a to-
tal of 5,223 points. The Florida was
second, with 4,514 points. Third
place was earned by the Delaware,
whose score was 4,260. The three
highest individual records were:
First, C. P. Wyatt, H. App. Utah,
458 points; second, S. E. Russell,
seaman, Utah, 449 points; third, Cox
Auburn, Florida, 414 points. Russell
is from Richmond and Auburn is
from Atlanta.

"Wyatt," says a letter received in
Anderson, "was made an expert
rifleman in 1913, the first time he
fired on a navy range."

Misses Priscilla and Isabella Po-
test and Annie Mae Bryant of Green-
ville, and Mr. Frank Cox of Farman
University, spent Sunday at the home
of Judge and Mrs. W. P. Cox.
